ABOUT THE ARTIST

GIUSEPPE COLI'

Cutrofiano 2019 - Giuseppe Coli, from Cutrofiano, is the new world champion of turners. The 40-year-old master, from the renowned company “Fratelli Coli”, won the “World Championship in technical tour Maestri”, which was held in recent days in Grottaglie. Competitors were asked to compete with unique tests such as the construction of the highest cylinder and the widest bowl. The first prize was awarded to Giuseppe Coli who had already graduated as world champion in Faenza in 2014 and then reconfirmed in 2016. The excellence of Giuseppe Coli's workmanship for Fratelli Coli di Cutrofiano is the unmistakable sign of the long ceramic tradition, which today pays attention to the details and shapes that distinguish all the items signed by the Cutrofiano company. This professionalism is increasingly appreciated in the world and in prestigious ceramic installations.
